2014 Kane County Corn Growers Corn Trials (Two plots)

1. Each participating company is invited to submit up to three hybrids into the plot. Each hybrid entry is \$125, with a maximum fee of \$375. Each hybrid will be planted on both first year corn ground and on chiseled corn ground.
2. Plot space is limited to 50 total hybrids – submissions will be accepted on a first come first served basis.
3. Both plots will be treated with glyphosate..
4. Each company shall list the maturity of each hybrid in heat units.
5. Each company shall provide at least ONE UNIT of seed of 40 lbs. or more per entry and contain a minimum of 80,000 seeds. Medium seed size is requested for best singulation.
6. Each hybrid must be available for purchase in quantity to farmers in Kane County (no experimentals).
7. All varieties must have full USDA, FDA, and EPA approval at time of planting.
8. All varieties must be accepted for delivery to Elburn Coop at time of planting.
9. The winner of each plot will have no entry fee for that particular plot the following year.

Please note:

We are working with an independent contractor to plant and harvest the plots. This will differ from a 'side by side' plot in the following ways:

- Three, 40 foot long replications will be done for each hybrid in both the corn on corn and first year corn plots.
- The placement of each hybrid will be randomly selected.
- Each hybrid will be planted in four rows, but only the middle two rows will be harvested for data.
- The published results will be an average of the replications on the corn on corn plot, and a separate average of the replications on the first year corn plot.
- There will be no "show plot" planted this year, but sign posts will be placed along Route 47 for signage to advertise the hybrids that are entered.
- ENTRY FEES MUST BE RECEIVED BY MARCH 14th,
- SEED MUST BE DELIVERED TO THE ELBURN COOP BY MARCH 21ST, AS THE SEED HAS TO BE SORTED AND PACKAGED FOR THE PLANTER.
- SEED DELIVERED TO THE FIELD ON PLANTING DAY WILL NOT BE ACCEPTED.
